

Counting a Collection

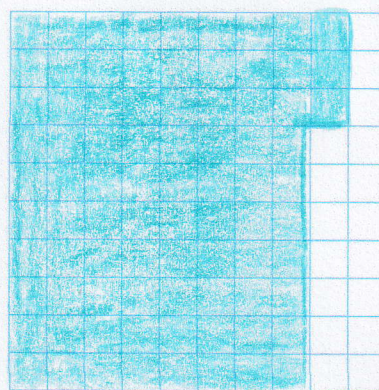

How many stamps has Lea bought ?

(Don't count the stamps one by one – find out how many stamps there are in each booklet first)

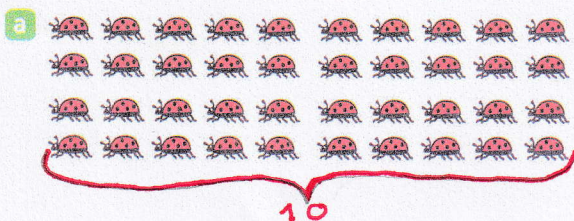

Lea has bought.....74.....stamps $(70 + 4)$

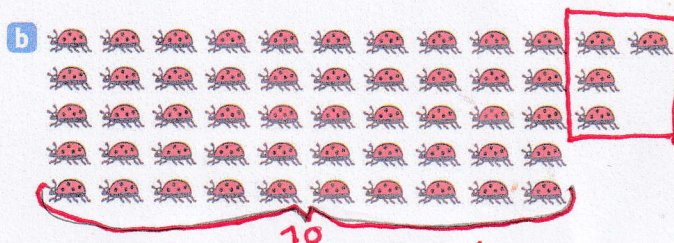

This grid has ten rows of ten squares.
Colour 83 squares without counting them individually.

1 How many ladybirds can you count ?

.....40.....ladybirds (4×10)

.....54.....ladybirds $((5 \times 10) + 4)$

2 How many shells can you count ?

.....67.....shells $(60 + 7)$

3 How many hearts can you count ?

.....86.....hearts $(80 + 6)$
