C'est le bazar au zoo (document à découper)

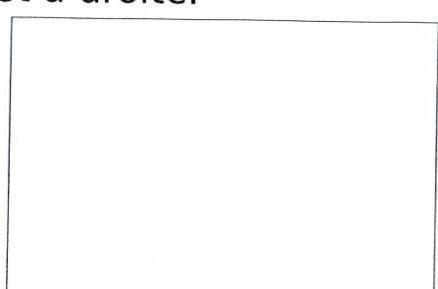

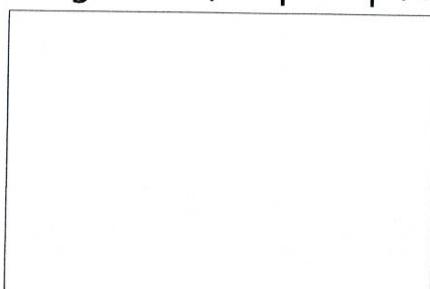

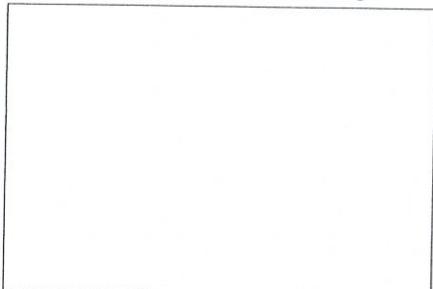

Les animaux du zoo se sont échappés, à toi de les ranger dans les bons enclos. Ci-dessous, découpe les animaux qu'il te faudra ensuite coller sur la page suivante.

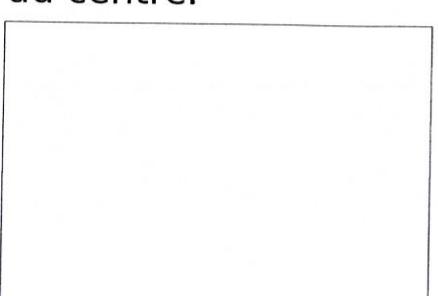

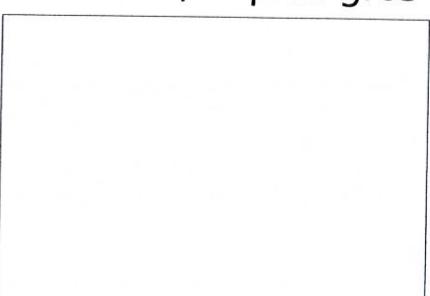

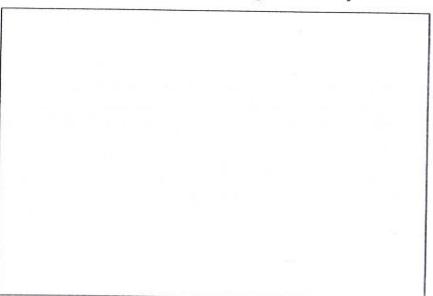

C'est le bazar au zoo

Les animaux américains du zoo se sont échappés. En suivant les directions, replace chaque animal dans le bon enclos, toujours trois animaux différents par ligne. Et si tu doutes, n'hésite pas à demander à la personne à tes côtés où se trouvent la gauche et la droite.

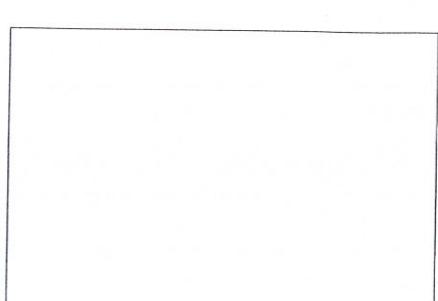

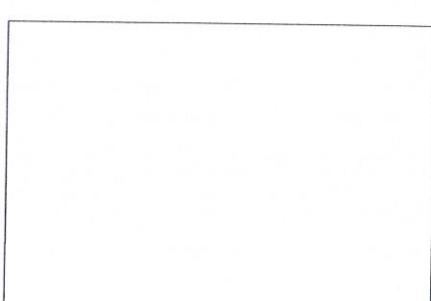

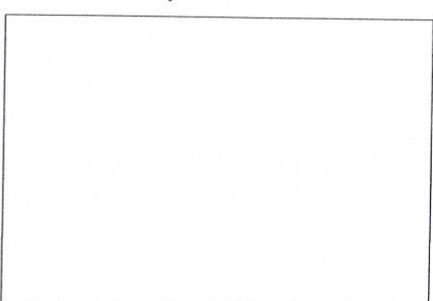

1. L'animal le plus gros est à gauche, le plus petit est à droite.

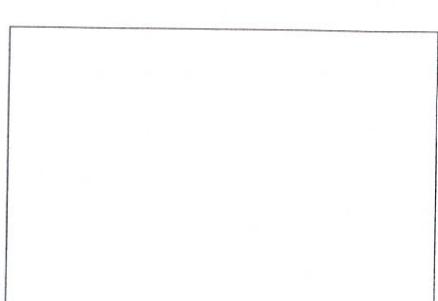

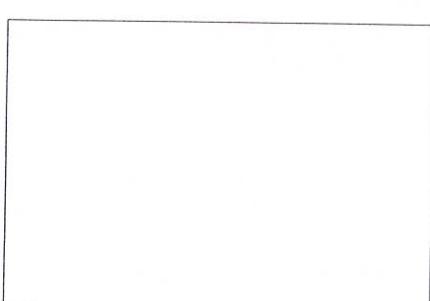

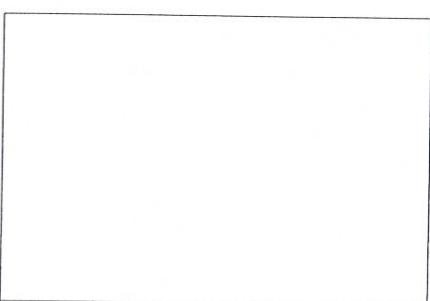

2. L'animal le plus petit est à droite, le plus gros est au centre.

3. Les trois animaux sont placés en ordre de grandeur. (deux solutions sont possibles)

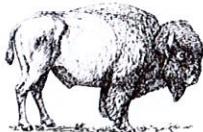

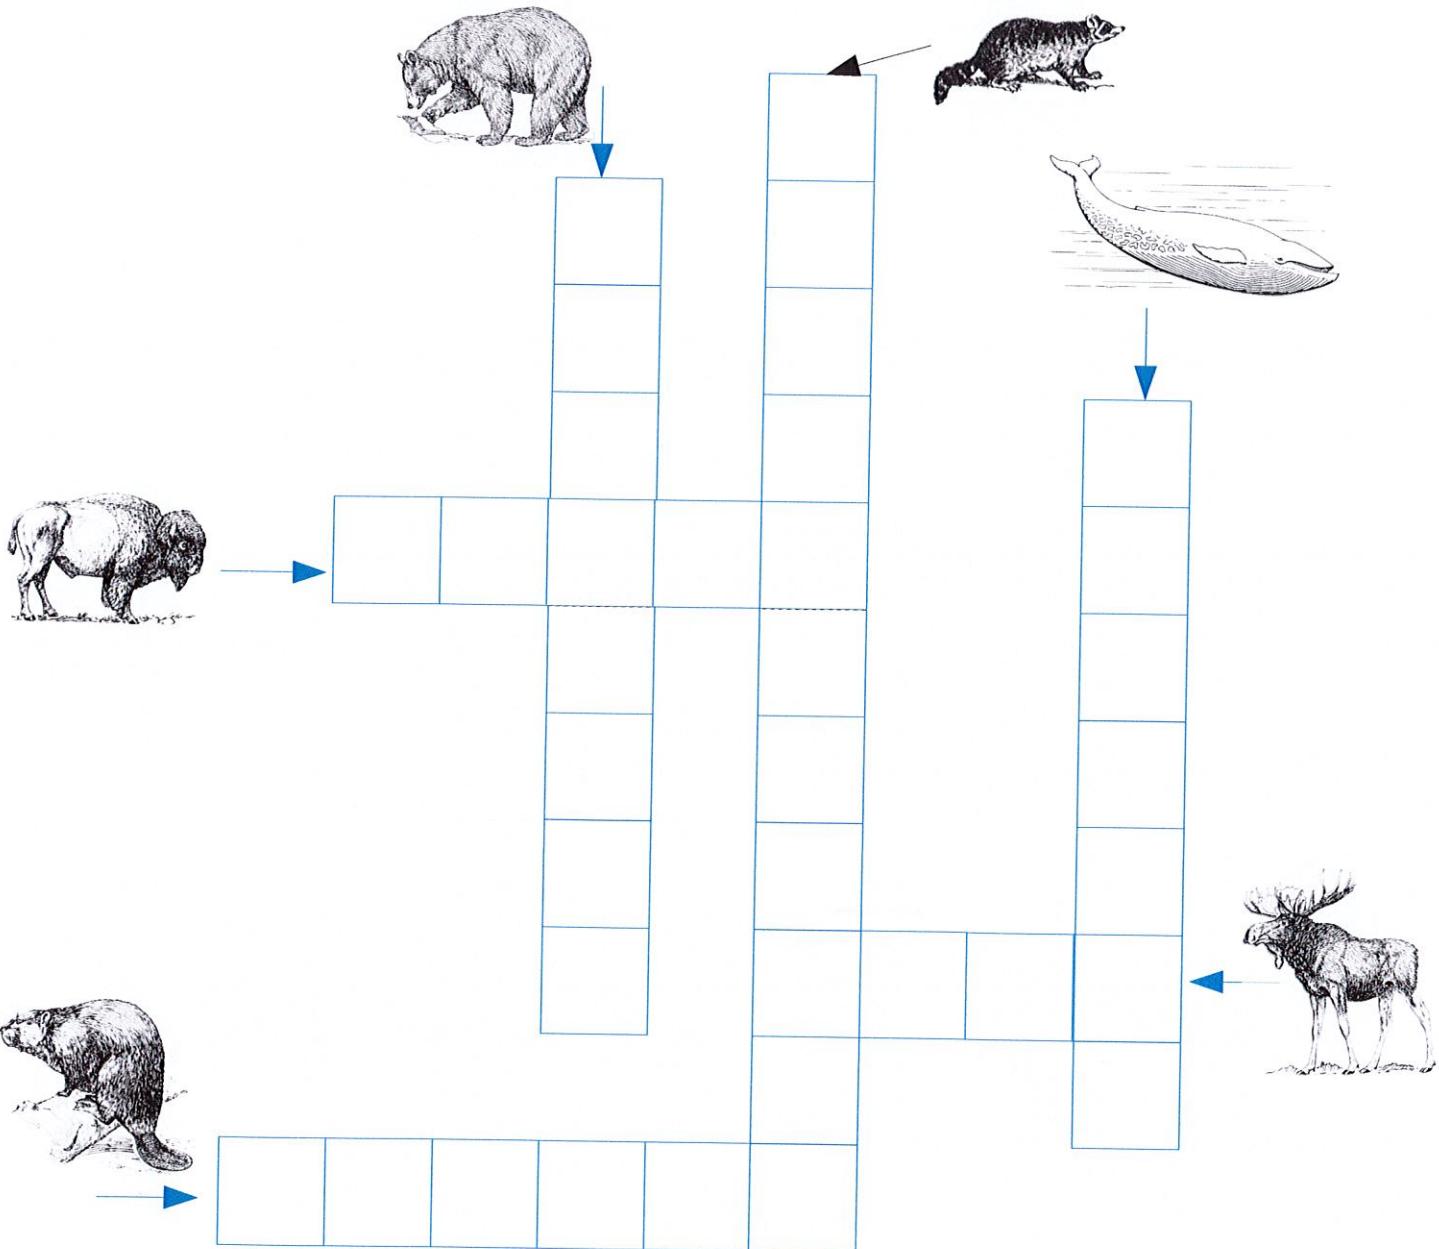

4. Le plus petit n'est pas au centre
